

COMPANIES: Fast Retailing Co., Ltd.

COUNTRY: Pakistan

ASSESSMENT DATE: 11/26/16

ASSESSOR: Insync Global

PRODUCTS: Apparel

NUMBER OF WORKERS: 1200

FLA Comments

This factory produced roughly 20,000 pieces per month, accounting for an approximate average of 10% of the factory's production capacity until FR decided to exit in May 2017. There is no additional production planned for 2017. FR's decision to exit was part of the company's strategic prioritization of production partners that consistently meet quality standards. To that effect, there were some delivery and quality issues prior to FR's decision to exit. There is no risk of retrenchment associated with FR's decision to exit because the factory is able to replace FR production with orders from other brands, including their own brand. For these reasons, FR will not pursue remediation for the non-compliances identified in this report. There are also currently no other FLA company affiliates sourcing from the factory to pursue remediation.

Summary of Code Violations

Companies that join the FLA agree to uphold the FLA Workplace Code of Conduct throughout their entire supply chain. The Code of Conduct is based on International Labour Organization (ILO) standards, and defines labor standards that aim to achieve decent and humane working conditions.

While it is important to note when violations of the FLA Workplace Code of Conduct occur, the purpose of these assessments is not simply to test compliance against a particular benchmark, but rather to develop an understanding of where and how improvements can be made to achieve sustainable compliance. Code of Conduct violations can be found throughout the course of an assessment of the employment and management functions, and are addressed in companies' action plans.

Findings and Action Plans

FINDING NO.1

SUSTAINABLE IMPROVEMENT REQUIRED

FINDING TYPE: Policies & Procedures (Macro)

Finding Explanation

1. The factory has a policy for Recruitment & Hiring, but not for Personnel Development.
2. The factory does not have any procedures for performance reviews.
3. The factory's procedures on Compensation has procedures on wages, but not for other benefits.
4. The factory does not have any written policies and procedures for Termination & Retrenchment, nor does it have methods for calculating final payouts.
5. The factory has policies and procedures for freedom of association and collective bargaining, but not for industrial disputes.
6. The factory's policy on Environmental Protection does not have a statement of management's general support of energy and water efficiency, and a commitment to minimize impacts with respect to air emissions, waste, hazardous materials and other applicable environmental risks. The factory does not have any written procedures for managing environmental impact within the factory and to its surroundings. The Environmental System manual commits to protect environment; however, it does not include any specific procedures.

Planned completion date

06/01/17

Company Action Plan Update

10/25/17 : Factory is in progress to mention in to handbook

FINDING NO.5

IMMEDIATE ACTION REQUIRED

FINDING TYPE: Compensation

Finding Explanation

1. Workers with direct bank deposit, about 95% of the workforce, do not sign their pay records to confirm payment.
2. Piece rate workers have not been provided with information regarding the pay rate per piece.
3. Wage slips are not provided to Security Guards.
4. Date of payment is not recorded on payment records and wage slips.
5. Twenty-four workers in the cutting department have been employed as trainees since October 1, 2016. Their monthly wage is PKR 12,000 (USD 114). These workers stated that they were employed in this factory through a government scheme (Punjab Skills Development Fund Industrial Training Program) and their training period is for three months. According to management, the government will pay the wages of these 24 workers after completion of two months employment; however, no written letter from government authorities was available to support the management's assertion.
6. According to management, the factory pays former workers their full and final payment (termination dues) one month after the last day of employment. As per law, termination dues must be paid within two working days from date of termination of employment.

Local Law or Code Requirement

The Sindh terms of employment Act 2016. (16) Termination of employment; Standing Orders Ordinance 1968. 5. Publication of wage; FLA Workplace Code (Employment Relationship Benchmark ER.2, ER.19, and ER.32; Compensation Benchmarks C.1, C.13, and C.14)

Recommendations for Immediate Action

1. Obtain the signatures of all workers on pay records to acknowledge receipt of wages.
2. Display the rate per piece for piece rated workers on notice boards in related work areas, in the local language.
3. Provide wage slips to security guards.
4. Record the date of payment on payment records and wage slips.
5. Obtain written communication specifying terms of employment from appropriate government authorities for the 24 trainees who are employed in the factory under the Punjab Skills Development Fund Industrial Training Program.
6. Pay termination dues within two days last day of employment.

FINDING NO.10

IMMEDIATE ACTION REQUIRED

FINDING TYPE: Health & Safety

Finding Explanation

1. The factory has not installed load limit switches on either of the elevators.
2. The factory has not posted signage near the elevators restricting their use in case of fire.
3. Loading capacity and intent of use (passenger or cargo) is not marked near the elevators.
4. Chemical containers are labeled for their contents, but not for their hazards.
5. Ten percent (10%) of workers from the cutting department and 10% of workers from the stitching department do not use the dust masks provided by the factory.
6. The factory does not provide lifting belts to the relevant workers.
7. The factory provides workers in the ironing department with anti-fatigue mats; however, 60 to 70 workers with standing jobs in the cutting and finishing departments are not provided with anti-fatigue mats. Adjustable chairs with backrests are not provided to workers with sitting jobs.
8. The factory has not marked traffic lanes or walking paths inside the premises.
9. The factory has not installed convex mirrors at blind ends, reflectors, or speed breakers to ensure safe driving practices inside the factory premises.
10. Two electrical generators used in the factory are not secured on both sides, as required by law.
11. The factory has not established a lockout-tagout procedure; however, "work in progress" signs are used for maintenance work.
12. The factory does not provide the proper safety equipment (harnesses) electricians who are working at heights on electric conduits.
13. The factory has not installed safety barriers or fences on two overhead water tanks.
14. The factory has not provided half of the electricians with safety shoes.
15. There is no health screening process for child care attendants prior to hiring.
16. There is no soap or towels in the hand washing areas of either of the two canteens or in the washrooms of the stitching sections located on the first and second floors of Block 2.
17. There is no "Danger" sign on two electric panels in the men's' canteen.
18. Male and female toilets are labeled in English, but not in the local language (Urdu).
19. First aid supplies, like hand bandages, arm bandages, triangular bandages and eye drops, are missing in seven of the 22 first aid kits located among the canteen, stitching, finishing, and packing sections. The factory has not provided a first aid kit in the sampling room.
20. One fire extinguisher, in the accessories storage area, is blocked by a wheelchair.
21. One of the two emergency lights in the accessories storage area does not function.
22. The factory does not provide cups for drinking water at three drinking water stations in the stitching and finishing sections.

Local Law or Code Requirement

Factories Act 1934 Para 33-A; Punjab factories rules 1978 Rule 41, Rule 29, Rule 96, and Rule 49; Factories Act 1934 Para 19; Factories Act 1934 Para 33-D; Electricity Rules 1937 Rule 57; FLA Workplace Code (Health, Safety & Environment Benchmarks HSE.1, HSE.5, HSE.6, HSE.8, HSE.9, HSE.14, HSE.17, HSE.18, HSE.20, HSE.23, and HSE.27)

Recommendations for Immediate Action

1. Install load limit switches on both of the elevators.
2. Post signage, in local language, restricting the use of the elevators in case of fire.
3. Post the load capacity and intent of use (passenger or cargo) near lifts.
4. Label chemical containers for hazards.
5. Train the relevant workers on the use of dust masks. Regularly monitor for compliance.
6. Mark traffic lanes and walk paths inside the factory premises.

7. Install convex mirrors at blind ends, reflectors, and speed breaker to ensure safe driving practices inside the factory premises.
8. Provide grounding arrangements for two electrical generators on both sides, as required by law.
9. Establish and implement a lockout-tagout procedure for use during maintenance work.
10. Provide safety belts for electricians who work at heights on electric channels.
11. Install safety barriers or fences on the two overhead water tanks to prevent falls.
12. Provide safety shoes for three out of six electricians.
13. Screen child care attendants prior to hiring.
14. Provide soap and towels in hand washing areas for both the male and female canteens and in male and female washrooms in the stitching sections located on the first and second floors of Block 2.
15. Post "Danger" signs, in the local language, on the two electric panels in the male canteen.
16. Label the male and female toilets in the local language, Urdu.
17. Sufficiently stock the first aid kits located in the canteen, stitching, finishing, and packing sections. Provide a first aid kit for the sampling room.
18. Ensure all fire extinguishers remain unobstructed at all times.
19. Repair the malfunctioning emergency light in the accessories storage area.
20. Provide cups for drinking water at the three drinking water stations in the stitching and finishing sections.
